

June is Men's Health Month

01

02

03

Eat Healthy.

Start by taking small steps like saying no to super-sizing and yes to a healthy breakfast. Eat many different types of foods to get all the vitamins and minerals you need. Add at least one fruit and vegetable to every meal.

Get Moving.

Play with your kids or grandkids. Take the stairs instead of the elevator. Do yard work. Play a sport. Keep comfortable walking shoes handy at work and in the car. Most importantly, choose activities that you enjoy to stay motivated.

Make Prevention a Priority.

Many health conditions can be detected early with regular checkups from your healthcare provider. Regular screenings may include blood pressure, cholesterol, glucose, prostate health and more.

“Recognizing and preventing men’s health problems is not just a man’s issue. Because of its impact on wives, mothers, daughters, and sisters, men’s health is truly a family issue.” – Congressman Bill Richardson (May 1994)

100%

Women are 100% more likely than men to visit the doctor for annual exams and preventative services.

1994

On May 31, 1994 President Bill Clinton signed the bill establishing National Men’s Health Week.

1 in 2

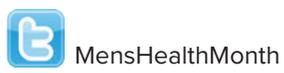

1 in 2 men are diagnosed with cancer in their lifetime compared with 1 in 3 women.

88.9

In 2010, there were 88.9 men for every 100 women in the age group 65-69.
